

PARTIAL CHECK LIST OF COMMERCIAL/INDUSTRIAL ASBESTOS CONTAINING MATERIALS

Friable Materials

- Air cell duct insulation
- Air cell pipe insulation
- Air cell jacketing insulation
- Asphalt impregnated paper
- Asbestos mag pipe insulation
- Asbestos mag insulation
- Asbestos Hard Fittings
- Asbestos hard fitting on permalite
- Duct insulation cement
- Duct mag insulation
- Duct board
- Duct felt paper
- Asbestos felt wrap pipe insulation
- Asbestos felt wrap hard fittings
- Asbestos duct felt tape
- Asbestos seam tape
- Glued - on ceiling tiles
- Glued-on ceiling tile adhesive
- Glued-on wall tiles
- Glued-on wall tile adhesive
- Lay-in ceiling tiles
- Gypsum wall board
- Gypsum wall board joint compound
- Gypsum wall board texture
- Gypsum ceiling board
- Gypsum ceiling board joint compound
- Gypsum ceiling board texture
- Spray-on ceiling materials (popcorn texture)
- ACM Wall Plaster
- Exterior Wall Plaster (Stucco)
- ACM Ceiling plaster
- Veneer plaster
- Troweled textured materials
- Sprayed-on cement fireproofing
- Sprayed-on fibrous fireproofing
- Troweled-on fireproofing
- Asbestos insulated wire
- Asphaltic emulsion
- Blown-in insulation
- Spray-on Insulation
- Vermiculate CMU fill

Non-Friable Materials

- Vinyl floor tile
- Floor tile mastic
- Sheet floor covering
- Coverbase mastic
- Build- up roofing
- Paper felt
- Roofing felt
- Roofing light weight cement
- Roof penetration sealant
- Cement asbestos board
- Cement asbestos siding
- Asbestos mill board
- Cement asbestos roofing shingles
- Transite pipe
- Lab Counter tops
- Chalk boards
- Gaskets
- Fire doors
- Contaminated soil
- Brake and clutch pads
- Poured asbestos cement flooring
- Putty/glazing window caulking
- Paints/Coatings
- Wall joint caulking

This is a sample list of materials that have been found to contain asbestos. In actuality, there are over 3,000 asbestos-containing materials. Please use this as general guideline to give you an idea of what products in your commercial building or industrial facility might contain asbestos.

This list does not substitute for a professional assessment. Only qualified professionals are capable of assessing asbestos-containing materials. This is intended only as a generic guideline.
